# PULKRA

A dialogue between Brutalist formal clarity and the poetry of natural creation that reveals Pulkra's profound inspiration. On stage, the tension between geometric rigour and expressive freedom, as well as precision and unpredictability, leads the observer to an experience of spatial estrangement.

At Design Variations 2024, Pulkra officially presents the Dome collection designed by Pio & Tito Toso and crowned by the iconic circular tub, together with projects by Stormo, Martinelli Venezia, Finemateria and DebonaDemeo.

The space installation is designed by Stormo, while the visual identity is curated by Studio Iknoki.
